### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Muzilla on 09/02/04 and 09/17/04.

The application has been amended as follows:

Claim 1, line 5, "comprising" has been changed to --consisting of--;

Claim 11, line 6, "comprising" has been changed to --consisting of--;

Claim 24, line 5, "comprising" has been changed to --consisting of--.

**REASONS FOR ALLOWANCE**

2. Claims 1-27 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a method of forming a liquid crystal alignment layer for use in a liquid crystal display cell comprising a combination of various steps as claimed, more specifically, forming the liquid crystal film consisting of liquid crystals and having a thickness which is smaller than a thickness of the liquid crystal filled cell, and irradiating the liquid crystal film with light wherein the wavelength of the light at least partially overlaps the absorption spectrum of the liquid crystals to form an alignment layer of liquid crystals.

Narutaki ('401) discloses a method of forming a liquid crystal alignment layer for use in a liquid crystal display cell comprising forming the alignment layer having liquid crystals and polymer, and irradiating the alignment layer with light. However, Narutaki fails to disclose forming the liquid crystal film *consisting of liquid crystals* and having a thickness which is smaller than a thickness of the liquid crystal filled cell, and irradiating the liquid crystal film with light wherein the wavelength of the light at least partially overlaps the absorption spectrum of the liquid crystals to form an alignment layer of liquid crystals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
